

Give your classrooms  
the **Quality**  
*they deserve*

## Who is

# Origin Education?

*We understand that relief teachers are usually required at a moment's notice.*

Origin Education was established in 1997 to respond to the growing need for flexible staffing arrangements within the education industry. As a preferred supplier of the Australian Education Union (AEU), we provide quality teachers in all subject areas throughout the Melbourne metropolitan area and outer suburbs. We also provide staff for School Holiday Programs and After School Care.

Our aim is to make the process of organising Casual Relief Teachers (CRTs) as easy as possible by providing quality teachers at competitive rates.

We understand the culture of schools and will always endeavour to find teachers that are the best fit for your classroom.

Origin Education prides itself on providing exceptional customer service.

We believe it is important that schools receive professional, flexible teachers. Our proven quality recruitment process guarantees that all teachers are carefully screened, thoroughly assessed and possess the right qualifications and experience for your needs.

At Origin Education we listen to the specific requests of each individual school to ensure the right teacher is matched to the right school, every time.

We strive to develop trusting, open relationships with our schools, in order to provide you with the best possible service.

We can also help you with any short term or contract positions.

*With just a single call to **Origin Education**, your classrooms will receive the seamless attention they deserve.*

Our

# Teachers

## Carefully Screened Teachers

All Origin Education CRTs are required to provide referees who can attest to their teaching ability. Applicants are required to supply their qualifications and evidence that all the requirements of the qualification have been achieved.

## Criminal Record Check

A satisfactory Criminal Record Check is mandatory for every person undertaking Casual Relief Teaching with Origin Education.

## Victorian Institute of Teaching Registration

All teachers must be registered with the Victorian Institute of Teaching (VIT). Each year members must supply Origin Education with evidence of their VIT registration.

## Personal Interview

At Origin Education, every teacher undergoes a personal interview before being registered with our agency. This way we can get to know our teachers and how they will work within the culture of your school.

## School Nurses

We are affiliated with Nursing Australia and are able to provide school nurses at competitive rates.

## Superannuation, WorkCover and Insurances

A 9% Superannuation contribution is paid to teachers from day one. Origin Education is responsible for WorkCover payments through its payroll. Our teachers are covered for Public Liability Insurance (\$100 million) and Professional Indemnity Insurance (\$10 million).

## One Invoice Covers Everything

Origin Education provides an invoice to the school which covers the teacher's salary, Superannuation, WorkCover, Public Liability and Professional Indemnity Insurances. CRTs complete and send their timesheet to Origin Education, relieving you of extra paperwork.

## Professional Development

We provide professional development opportunities to support our members. We care about our teachers and invest in their careers.
